

## ***Introduction and Profile***

A language is means of communication that distinguish us from any other being.

The work of languages in technical world ought to achieve accuracy with precision of professionals to reflect the knowledge and sophistication of all beings.

Langitude.com is an emerging LSP “Language Service Provider” where language skills are considered as a profession, an aptitude and a way of life. We provide services in major international languages.

## About Langitude.com

Langitude.com is a one stop-shop for all your language requirements. We are working at “Langitude.com” as the expert resource center for international language expertise. Our core area of working is in interpretation and translation services for seminars, conferences, technical discussions and business meetings in India. Langitude.com is spin-off from Equinox consultancy to provide international language services in the different domains and verticals.

## Profile

We provide services for all international languages solutions like Translations, Interpretations, Adaptations, Bilingual resource center and Corporate Training for various organizations. Our mode of communication is English and we have services in German, French, Dutch, Italian, Polish, Croatian, Czech, Spanish, Portuguese, Russian, Japanese, Korean, Chinese and Hindi to name a few. As for other various languages, we have pool of freelancer's database available on demand from clients.

### Translations

We provide translations which are dependable and steadfast. Going beyond the meaning of word to word, we look for real sense of the matter that provides crux a matter in most of the techno-graphical documents. Along with the usage of latest technology and pool of glossaries available, with the expertise of veteran in the translation work, we make sure that we use the right word to explain and justify the word translation.

### Interpretations

Be it the latest technology, economics or finance, we are readily available to provide services for seminars, business discussion, expositions and general meetings. With globalization and opening of economies, the interpreters are like longitude of the world to connect the two poles across the globe. Right nuisances and right expression combined with the communication skills, we make sure that interpreters works to materialize the whole investment across the latitude of the project by providing live interpretation solutions for words of your mouth.

E-convergence has given birth to outsourcing that helps bind our sales and services related office operation at one place, at one point in time. India with its vast skilled resources and speaking the various languages of the world emerges as hub for providing solutions to the world. In this emerging economy we are here to provide the manpower rightly suitable for the linguistic operations in most of companies with their international connections and outsourcing industry.

## Adaptations

The cross-cultural working environment of multinational organizations often requires keeping abreast with their company policy across the globe, external local environments and latest research and development to disseminate globally in group companies. To bring about uniform work ethics, all it takes to translate all corporate presentations, training manuals, educational movies and policy decisions. Further language services can be used in multimedia presentations, business brochures, voiceovers, marketing manuals, subtitles, composition scripting, etc. We bring all your presentation needs come alive into other language.

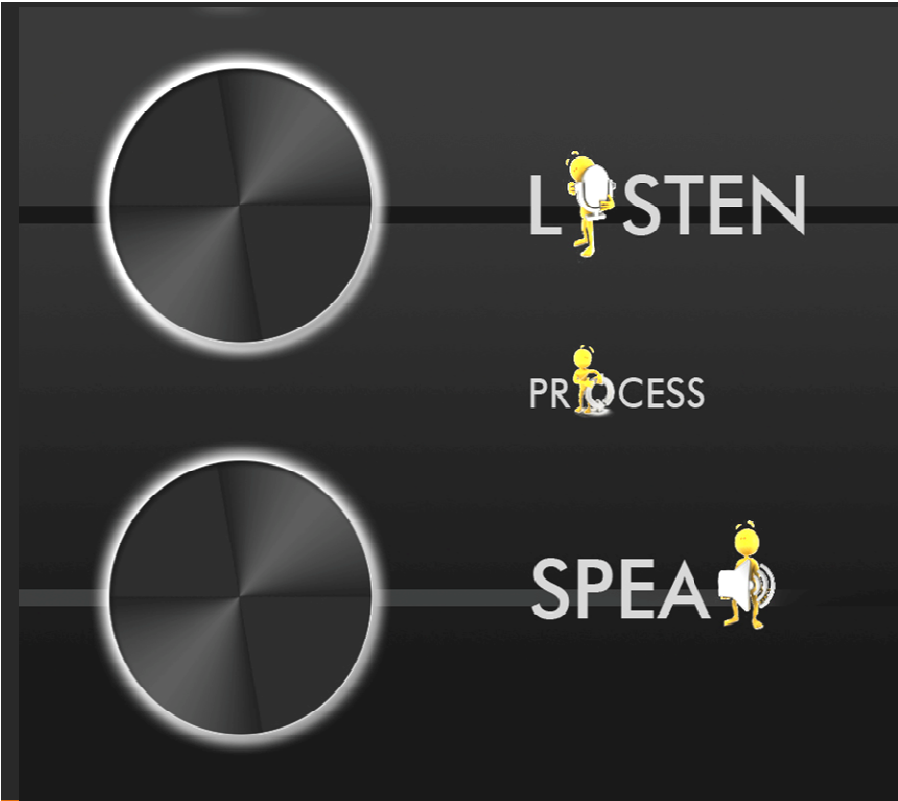

## Trainings

When it requires the global business people to meet at one place, then they must speak the common language. With business ethics and customs the short while spent on trainings for basic and advanced course turns out to be fruitful idea of learning languages. We organize the corporate workshops in international languages for the companies collaborating to learn the cross cultural ethics and expressions to converse with foreign nationals.
